PROFESSIONAL SUMMARY

Full-Stack Web Developer with 2+ years of full-stack application engineering experience and a 6-month software development internship. Proficient in crafting responsive UI components, engineering scalable RESTful APIs, and implementing end-to-end MongoDB database architectures. Experienced in utilizing modern web frameworks, cloud deployment pipelines, and AI workflows to optimize query performance and build production-grade web applications.

TECHNICAL SKILLS

Frontend Dev:	HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, React Native, Tailwind CSS, Bootstrap, Context API, Redux Toolkit
Backend Dev:	Node.js, Express.js, RESTful API Architecture, JWT & CORS Auth, Server-Side Rendering (SSR)
Database & Storage:	MongoDB, Mongoose ORM, PostgreSQL, Cloudinary Media Services, Multer Memory Management
Tools & Deployment:	Git, GitHub, VS Code, Vercel, Railway, Render, Postman API Testing, Axios, Figma UI/UX
AI-Assisted Tools:	ChatGPT, Gemini CLI, OpenAI Codex, Cursor, Google Antigravity, Automated Testing & Debugging

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer | **Self-Employed** **2024 – Present**

- Architected and deployed production-ready full-stack applications utilizing React.js, Next.js, Node.js, Express, and MongoDB.
- Engineered secure RESTful APIs, Stripe payment workflows, dynamic shopping carts, and administrative management dashboards.
- Optimized MongoDB queries and client-side rendering, improving overall application load times by 35%.

Freelance Frontend Developer | **Self-Employed** **2023 – 2024**

- Developed over 10+ pixel-perfect, responsive web interfaces focusing on cross-browser compatibility and UI usability.
- Integrated third-party REST APIs and managed client-side global state using Redux Toolkit and React Context API.

Full-Stack Developer Intern | **Ovex Tech** **6 Months**

- Collaborated with senior software engineers in building and maintaining backend REST API endpoints and web features.
- Identified and resolved frontend layout bugs and optimized asynchronous API request handling across workflows.

SELECTED PROJECTS

PeopleDesk – **Human Capital Management App** **Next.js | Node.js | Express | MongoDB | Vercel**

- Engineered an enterprise-grade HCM platform integrating AI-powered HR workflows, automated payroll processing engine, attendance tracking, and leave management modules.
- Implemented multi-tenant architecture with Role-Based Access Control (RBAC), custom CORS security rules, and seamless MongoDB Atlas connection pooling for serverless execution.

Sastazon.pk – **Full-Stack E-Commerce Platform** **Next.js, Node.js, Express, MongoDB**

- Built an end-to-end e-commerce store with product search, filtering, custom cart functionality, and real-time admin management.

ResumeCraft – **Live Resume Builder Application** **React.js, Tailwind CSS, Node.js**

- Developed a state-driven resume creation platform with live interactive preview, template switching, and client-side PDF export.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science – **University of Karachi** **2020 – 2024**

- **Core Coursework:** Data Structures & Algorithms, OOP, Database Systems, Web Engineering, Software Engineering.

Modern Web & Mobile App Development with AI Course – **Saylani Mass IT Training (SMIT)** **2025**
